Murray S. Daw

8 November 2016

*Number 642 on ISI's Most-Cited Physicists (1981-1997).*

1. Daw, M. S., and D. L. Smith. "Vacancies near semiconductor surfaces." **Phys. Rev. B** **20** 5150 (1979).
2. Daw, M. S., and D. L. Smith. "Energy levels of semiconductor surface vacancies." **J. Vac. Sci. Tech.** **17** 1028 (1980).
3. Daw, M. S., and D. L. Smith. "Surface vacancies in InP and GaAlAs." **Appl Phys Lett** **36** 690 (1980).
4. Daw, M. S., D. L. Smith, C. A. Swarts, and T. C. McGill. "Surface vacancies in II-VI and III-V zincblende semiconductors." **J. Vac. Sci. Tech.** **19** 508 (1981).
5. Daw, M. S., D. L. Smith, and T. C. McGill. "Surface core excitons in III-V semiconductors." **J. Vac. Sci. Tech.** **19** 388 (1981).
6. Daw, M. S., and D. L. Smith. "Relation between the common anion rule and the defect model of Schottky-barrier formation." **Solid State Commun.** **37** 205 (1981).
7. Daw, M. S. *Theory of vacancies and core excitons near semiconductor surfaces*. California Institute of Technology, Ph. D. Thesis, 1981.
8. Swarts, C. A., M. S. Daw, and T. C. McGill. "Bulk vacancies in  $Cd_xHg_{1-x}Te$ ." **J. Vac. Sci. Tech.** **21** 198 (1982).
9. Daw, M. S., C. L. Bisson, and W. D. Wilson. "Binding of hydrogen to fixed interstitial impurities in metals." **3rd International Congress on Hydrogen in Materials**. Ed. P. Azou. Inst. Super. Mater. Constr. Mec., Saint-Ouen, France (1982).
10. Daw, M. S., and M. I. Baskes. "Semiempirical, quantum mechanical calculation of hydrogen embrittlement in metals." **Phys Rev Lett** **50** 1285 (1983).

11. Daw, M. S., C. L. Bisson, and W. D. Wilson. "Calculations of the binding of hydrogen to fixed interstitial impurities in nickel." **Met. Trans. A** **14** 1257 (1983).
12. Daw, M. S., D. L. Smith, and T. C. McGill. "Core excitons for the (110) surface of zincblende III-V semiconductors." **Solid State Commun.** **47** 449 (1983).
13. Daw, M. S., C. L. Bisson, and W. D. Wilson. "Hydrogen binding to fixed interstitial impurities in metals." **Solid State Commun.** **46** 735 (1983).
14. Wilson, W. D., M. I. Baskes, and M. S. Daw. "Calculations of hydrogen and helium in metals." **Advances in the Mechanics and Physics of Surfaces II**. Ed. R. M. Latanision and T. E. Fischer. New York: Harwood Academic Publishers (1983).
15. Daw, M. S., and M. I. Baskes. "Embedded-atom method: Derivation and application to impurities, surfaces, and other defects in metals." **Phys Rev B** **29** 6443 (1984).
16. Foiles, S. M., M. S. Daw, and W. D. Wilson. "Application of the embedded atom method to transition metal alloys." **High Temperature Alloys: Theory and Design**, ed. J. O. Stiegler. (The Metallurgical Society of AIME, 1984).
17. Daw, M. S., and S. M. Foiles. "Theory of hydrogen on metal surfaces." **The Structure of Surfaces: 1st International Conference on the Structure of Surfaces**, ed. M. A. Van Hove and S. Y. Tong. (Springer-Verlag, Berlin, 1985).
18. Daw, M. S., and R. D. Hatcher. "Application of the embedded atom method to phonons in transition metals." **Solid State Commun** **56** 697 (1985).
19. Daw, M. S., M. I. Baskes, C. L. Bisson, and W. G. Wolfer. "Application of the embedded atom method to fracture, dislocation dynamics, and hydrogen embrittlement". **Modelling Environmental Effects on Crack Growth Processes**, ed. R. H. Jones and W. W. Gerberich. (The Metallurgical Society, 1985).
20. Foiles, S. M., and M. S. Daw. "A theoretical study of the order-disorder transitions for hydrogen on Pd(111)." **J Vac Sci Tech** **3** 1565 (1985).
21. Foiles, S. M., M. I. Baskes, and M. S. Daw. "Embedded-atom-method functions for the fcc metals Cu, Ag, Au, Ni, Pd, Pt, and their alloys." **Phys Rev B** **33** 7983 (1986). [*Erratum: Phys Rev B* **37** 10387 (1988).]

22. Daw, M. S. "Calculations of the energetics and structure of Pt(110) reconstruction using the embedded atom method." **Surf Sci** **166** L161 (1986).
23. Felter, T. E., S. M. Foiles, M. S. Daw, and R. H. Stulen. "Order-disorder transitions and subsurface occupation for hydrogen on Pd(111)." **Surf Sci** **171** L379 (1986).
24. Daw, M. S., and M. I. Baskes. "Application of the embedded atom method to hydrogen embrittlement." p196 from **Physics and Chemistry of Fracture**, ed. R. M. Latanision and R. H. Jones (NATO Advanced Studies Institute Series E: Applied Sciences. Bad Reichenhall, West Germany: Martinus Nijhoff, Dordrecht, 1986).
25. Daw, M. S., and S. M. Foiles. "Calculations of the energetics and structure of Pt(110) using the embedded atom method." **J Vac Sci Tech. A** **4** 1412 (1986).
26. Foiles, S. M., and M. S. Daw. "Application of the embedded-atom method to  $Ni_3Al$ ." **J Mater Res** **2** 5 (1987).
27. Daw, M. S., and S. M. Foiles. "Theory of subsurface occupation, ordered structures, and order-disorder transitions for hydrogen on Pd(111)." **Phys Rev B** **35** 2128 (1987).
28. Foiles, S. M., M. I. Baskes, C. F. Melius, and M. S. Daw. "Calculation of hydrogen dissociation pathways on nickel using the embedded atom method." **J Less-Common Met** **130** 465 (1987).
29. Daw, M. S., and S. M. Foiles. "Calculation of structural phases of transition metal surfaces using the embedded atom method." p125 from **Second International Conference on the Structure of Surfaces**, ed. J. F. van der Veen and M. A. Van Hove. (Springer Series in Surface Sciences 11. Amsterdam, The Netherlands: Springer-Verlag, 1987).
30. Daw, M. S., and S. M. Foiles. "Order-disorder transition of Au and Pt(110) surfaces: the significance of relaxations and vibrations." **Phys Rev Lett** **59** 2756 (1987).
31. Foiles, S. M., and M. S. Daw. "Calculation of the defect properties of  $Ni_3Al$  using the embedded atom method." **J of Metals** **39** 39 (1987).
32. Foiles, S. M., M. I. Baskes, and M. S. Daw. "The Calculation of the Equilibrium Interface Structure of Alloys." **US-Japan Seminar on Electronic Structure and Lattice Defects in Alloys**, ed. R. W. Seigel and F. E. Fujita. (Honolulu: Trans Tech Publications, 1987).

33. Foiles, S. M., and M. S. Daw. "Calculation of the thermal expansion of metals using the embedded-atom method." **Phys Rev B** **38** 12643 (1988).
34. Daw, M. S. "Embedded atom method: Many-atom description of metallic cohesion." **Beyond Pair Potentials**, ed. V. Vitek and D. ", a Special Symposium of the World Materials Congress. Ed. V. Vitek and D. Srolovitz. Chicago: 1988.
35. Foiles, S. M., M. I. Baskes, and M. S. Daw. "Atomistic studies of interfacial structure and properties." p343 in **Interfacial Structure, Properties and Design**, ed. M. H. Yoo, W. A. T. Clark and C. L. Briant. (Proc Mat Res Soc Symp., Pittsburgh, 1988).
36. Nelson, J. S., E. C. Sowa, and M. S. Daw. "Calculation of phonons on the Cu(100) surface by the embedded-atom method." **Phys Rev Lett** **61** 1977 (1988).
37. Baskes, M. I., S. M. Foiles, and M. S. Daw. "Application of the embedded atom method to the fracture of interfaces." **J de Physique C5** 483 (1988).
38. Baskes, M. I., M. S. Daw, and S. M. Foiles. "The embedded atom method: theory and application" . MRS Fall Meeting. (Proc Mat Res Soc Symp. Boston, MA: MRS, 1988).
39. Yoo, M. H., and M. S. Daw. "Atomistic simulation of superdislocation dissociation in  $Ni_3Al$ ", in **Beyond Pair Potentials, a Special Symposium to the World Materials Congress**. Chicago: 1988.
40. Baskes, M., M. S. Daw, S. M. Foiles, and B. Dodson. "Atomic-scale simulation in materials science." **MRS Bulletin** **13** 28 (1988).
41. Foiles, S. M., and M. S. Daw. "Atomistic Studies of Interfacial Structure and Properties." **Interfacial Structure, Properties and Design**, ed. M. H. Yoo, W. A. T. Clark and C. L. Briant. (MRS, Pittsburgh, 1988).
42. Daw, M. S. "Model of metallic cohesion: The embedded-atom method." **Phys Rev B** **39** 7441 (1989).
43. Foiles, S. M., M. I. Baskes, and M. S. Daw. "The calculation of the equilibrium interface structure of alloys." **Mat Sci Forum** **37** 223 (1989).
